Water supply grants – Kolar Dt.

Continuation Sheet File No / Current No of Page

From the D. C. Kolar Dt.
No. A.S. C 484 of 1-2-45

His proposals in respect of Govt. grants for water supply works in certain municipalities in the Kolar Dt. during the year '44-45.

1. Chickballapur

A sum of Rs 5,000 is recommended for sinking of borewells and laying out pipelines. The Mty is said to have promised to contribute an equal sum, as the cost of the scheme amounts to Rs 10,000. This is for orders.

A grant of Rs 5000 may be given for sinking borewells in Chickballapur Municipality during the current year.
7/3/45

May be sanctioned
CW
7-3-45

2. Kolar

A sum of Rs 5,000 is recommended towards the A R charges of the local water works. As the financial position of the Mty is not satisfactory, the D.C. strongly recommends the grant.

Subject Town Improvement and Water Supply Grants for the year 1944-45

***

With reference to your letter No L 7399-400 dated the 25th January 1945, on the above subject, I have the honour to forward herewith three statement as noted in the margin and to state that statement No 1 contains the works of Town Improvement for which Government have sanctioned grants in the previous years as noted against each item of the statement In addition to the works for which Government grants were sanctioned in previous years, the works which are of urgent necessity in the interests of public convenience have been selected by me having regard to the general finances of the concerned Municipality and are included in Statement Nos 2 and 3

1 Commitments made by Government in respect of Town Improvement and Water Supply Works
2 Town Improvement works for which grants are required now
3 Water Supply works for which grants are now required

2 In respect of incomplete works, the drainage schemes of Malur, Mulbagal and Kolar are partly financed by Government grants. The Municipal Councils of Malur and Mulbagal have each come forward to spend Rs 2,000 during this year . The work is in progress Mulbagal while it is about to be taken up in Malur As these schemes are incomplete and as the Sanitary Engineer has taken action to push through the works, the grants asked for may kindly be sanctioned As regards Kolar, the 1st stage of the work is under progress and owing to the added importance of the Town it is necessary to complete the drainage works as early as possibl The Director of Public Health has already recommended to Government in his Letter No C 342-76 dated the 29th January 1945 that the 2nd stage of the scheme might be taken up simultaneously with the 1st stage of the work and representations of the citizens of

of Kolar town were made to the Dewan during his recent visit to Kolar in January 1945 (Please vide my D O No C21/44 dated the 26th January 1945 to the Law Secretary). The proposals for the Government grant of Rs 20,000 may therefore be sympathetically considered As the total cost of the scheme is estimated to cost about Rs 35,000 a special Government grant of Rs 20,000 is urged for the current year 1944-45 There is no proper building for the vegetable market at Chickballapr which has a population of more than 15,000 and the question of constructing a building is under correspondence The Sanitary Engineer has been addressed for the preparation of the plans and estimates and a Goverment grant of Rs 6,000 was recommended last year which was deferred As this is an usuful work in the interests of the towns people and as the council have agreed to bear half the cost of the work, a grant of Rs 6,000 is now recommended As regards the drainage work of Srinivaspur, plans and estimates for Rs 63,260 have been made ready by the Director of Public Heath in Mysore as intimated in his No C 19-2 dated the 14th August 1944 It is proposed to take urgently the 1st stage of the work which costs Rs 18,400 The Municipality is a Minor Municipality and its respurces are very slender and it is unable to meet its quota for such heavy items of expenditure A special grant of Rs 6,000 for the current year may kindly be sanctioned.

3 Water Works - The present water supply at Chickballapur is too meagre and the requirements of this town cannot be satisfied by the existing borewell It is therefore proposed to use the new borewall which is nearing completion and to connect water taps to the Public streets The Municipality have been often urging for the improvement of the supply of water to the Public and the Sanitary Engineer has been addressed to prepare the estimates The Government grant of Rs 5,000 is recommended for the current year, as this is an urgent and important work for the town

4 The arrears of water maintenance charges have accumulated

in Kolar and the supply of water in the Eastern portion of the town through the existing arrangment is very inadequate owing to the limited capacity of water tanks and want of levels It is contemplated to utilize the Srikanteswara Iyer's well in the tank bed of Kolar town and supply Kelaginapet, Gulpet, Kurubarpet and Fort area independently with water, either by this means or by improving the existing scheme The Municipality have arranged for raising a donation of Rs 6,000 from a philanthrophic gentleman for ~~th~~ the former scheme and a grant of Rs 1,0000 from Government is now recommended As the Municipality has not got sufficient funds to m meet the expenses of the water maintenance charges which ~~are~~ on the increase, a special grant of Rs 5,000 over and above the usual maint maintenance charges incurred by the Municipality may also be kindly ~~be~~ sanctioned.

5 The favour of early order of Government accepting the above ~~recommendations~~ is requested
Recommendations

***

Statement showing water supply grants for the several Municipalities of the Kolar District
for the year 1944-45.

Name of Municipality.	Name of work.	Amount of Estimate.	Fresh or Incomplete	Whether plans and esti-mates are ready.	Amount pro-mised. by Muny -	Amount of grant recommend-ed.	Remarks.
Chickballapur.	Sinking of borewells and laying out pipe-lines.	About Rs.10,000/-	Fresh.	..	Half the cost.	5000/-	To town has not been connected with water taps as the existing bore wells have not sufficient supply The Sanitary Engineer has been adressed on 13-12-44 to prepare estimates for Completing ~~sinking~~ bore wells and laying the pipes. The grant may be sanctioned.
Kolar.	Maintenance charges of Kolar water works	14,000/-	..	..	9000/-	5000/-	Due to extra population of over 8 thousands the maintenance charges are high and the -- arrears of 16,000/- are still outstanding. As the Munici-pality has no funds the grant is recommended.
	Improving the water supply to the Fort and Kelelaginpet.		Fresh.	Under preparation.	5000/-	10000/-- (a)	(a) The new extensions have no water taps and the supply to the eastern portion of the town is not convenient owing to high level. It is proposed to utilise the Srikanteswaraiyer's well in the tank bed to connect Fort and other areas independently of the present water works. As the Municipality has -- arranged for a donation of Rs.5000/- an equal grant of Rs.5000/- may be recommended.
